<b>Group S</b>	Satellites	on inquiry

Other countries and destinations on inquiry.

## Advices

The relation between countries/destinations and its relative groups can be found on the second (2<sup>nd</sup>) page of this telephone tariffs list.

<sup>1)</sup> All prices and tariffs stated in Euro-Cent and excluding VAT (IVA). All prices as per minute and valid exclusively from the aeromax WiMAX network to the corresponding destination. Other countries and destinations on inquiry. The billing is per seconds beginning from the very first (1.) second of conversation, except phone calls to Spanish mobile phones: per second billing after the first (1.) minute. Call connection costs does not exist and won't be charged. Phone calls between clients of aeromax are always free of cost: 0,00 ct/min - hereby it does not matter, in which geographic part of the aeromax WiMAX network these clients are.

<sup>2)</sup> For security reasons and as a protection for our clients against the "expensive" spanish service numbers 803 / 806 / 807 / 906 / 907, the stated number ranges are blocked for phone calls initiated within the aeromax WiMAX network to a number out of this number ranges.

Valid from 01.08.2009.
